(54) Title: METHOD AND SYSTEM FOR PROVIDING PROJECTOR IMAGES

(57) Abstract: A computer program product in a computer readable medium having projector driver computer readable code for converting an application file into a projectable image file for presentation by a projector connected to a network. The computer program product further had a network interface computer readable code for communicating the projectable image file in the form of a printer file over the network to the projector to thereby facilitate a subsequent presentation of the projectable image file by the projector.
